DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C.
 121:

- Claims1-8, 20, drawn to base station receiving mode classified in class 455, subclass 135.
- II. Claims 9-19, 21-22, drawn to mobile station transmits mode,classified in class 455, and subclass 126.
- III. Claims 23-27, drawn to base station with implementing an interpretation of a channel information from mobile station, classified in class 455, subclass 226.1

The inventions are distinct, each from the other because of the following reasons:

2. Inventions [I] and [II] are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention

Application/Control Number: 10/079,778

Art Unit: 2682

[II] has separate utility such as transmitting a signal quality value to base station. See MPEP § 806.05(d).

Page 3

- 3. Inventions [I] and [III] are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention [III] has separate utility such as implementing the interpretation of the channel information over a predetermined duration time of the quality values at the base station. See MPEP § 806.05(d).
- 4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
- 5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Application/Control Number: 10/079,778

Art Unit: 2682
